THE RESEARCH PROCESS

DEFINE

What do we want to know before we set off?
What is important?
What are the keywords?
Use graphic organisers to assist

LOCATE

What sources can we use and where can we find them?
- Books (library, home, online)
- Images (books, online)
- Newspapers (online)
- Websites
- Video (online)
- Maps (books, online)
- Interviews

Use skimming & scanning techniques. Take notes

SELECT

What will be useful for our final response to the topic?
Consider
- Authority
- Currency
- Reading level

Record your sources in a bibliography

ORGANISE

Use headings and sub-headings

EVALUATE

What did you do well?
How could you improve?
What did you learn?
What can you teach others?

PRESENT

What is the expected end result?
Write things in your own words
Credit other peoples contributions
Use some of the amazing Internet presentation tools available

What did you do well?
How could you improve?
What did you learn?
What can you teach others?
